JavaScript	Event Handling, Form Handling, Client-side Validation, Dynamic Content, Timers
Tools	Git, GitHub, Visual Studio Code
Core	Debugging, Problem Solving, Clean & Responsive Code

EDUCATION

Bachelor of Computer Applications (BCA) Mohyal Education and Research Institute of Technology IGNOU	Semester 1 Expected Graduation: 2029
Class XII Ideal Public School CBSE	74% 2026
Class X Ideal Public School CBSE	70% 2024

PROJECTS

Amazon Clone Responsive e-commerce interface using HTML and CSS.	QR Code Generator Generates QR codes from text and URLs using JavaScript.	Contact Form Responsive form with client-side validation.
Personal Portfolio Portfolio website showcasing skills and projects.	Responsive Landing Page Modern mobile-friendly responsive interface.	Random Quote Generator Displays inspirational quotes dynamically.
Background Color Changer Interactive color switcher using JavaScript.	Love Calculator Fun relationship compatibility calculator.	Income Tax Calculator Calculates income tax from entered income.
Digital Clock Real-time digital clock using JavaScript.	Countdown Timer Dynamic countdown tool for events and deadlines.	Astrology App Displays zodiac sign information interactively.
Clicker Game Interactive click-counter game built with JavaScript.	To-Do List Task management app using JavaScript and DOM manipulation.	Quiz App Interactive quiz application with scoring.

PRACTICAL EXPERIENCE

Frontend Development Projects

Built multiple frontend applications to strengthen practical web-development skills. Implemented responsive layouts, DOM manipulation, event handling, form validation, dynamic content, timers, calculators, games, and interactive interfaces. Used Git and GitHub for version control and Visual Studio Code for development.

CURRENT LEARNING

Improving JavaScript and React.js skills while progressing toward full-stack development. Focused on asynchronous JavaScript, APIs, reusable components, and maintainable code.
